Subject: RE: Request 10/532079 of Jacek Marczyk proposed claims

I need you to file the amendment officially and make sure the claims are tied to a statutory class. Your method steps need to be computer implemented.

I am still waiting for you to explain where the practical application is disclosed in the specification and how your claims are not preemptive are not open-ended and do not read on unknown uses. Failure to do this will result in the examiner making the necessary office action.

Subject: FW: Request 10/532079 of Jacek Marczyk proposed claims

Dear Supervisory Patent Examiner Vincent:

As a follow-up to your call on Tuesday afternoon, regarding the above application:

Given your comments, it appears that you are missing material that should be in the case's file. As you can see from the E-mail below, claims were forwarded to Mr. Starks on January 30, 2007. The attached claims are the claims that are to be entered pursuant to the Director's decision: They were the claims that were attached to the petition and these were the claims that the Director was referring to in his decision.

I will also send you a copy of Mr. Starks' acknowledgement of his receipt of the E-mail and its attachment.

Respectfully,
Gary Pisner, Esq. Bar ID 34096

RE: Second Request for in-person interview for application 10/532079 of Jacek Marczyk.

Dear Mr. Starks:

Pursuant to our January in person interview, I have attached proposed claims that, given your comments, will meet the requirements that you requested during our interview. Please review the proposed claims and send me an E-mail or give me a call. If they are acceptable, I will put the attached claims in the form of an amendment.
